RESA

• *two* •

A powerful engine for education

WV Board of Education Policy 3233

“Each RESA shall submit . . . an evaluation of the services provided within each respective region and their effectiveness. The evaluation is to be completed by schools, school systems, and others using the RESA’s services/programs and must include 1) an overall evaluation of the RESA’s services/programs; 2) suggestions on methods to improve the utilization of existing services/programs; 3) suggestions on how existing services/programs may be enhanced; and 4) what new services/programs would be of benefit to schools and school systems.”

OVERALL PROGRAMS/SERVICES EVALUATION

Place an “x” on the scale below to indicate your overall evaluation of RESA services/programs.

PROGRAM / SERVICES SUGGESTIONS

1. How can the utilization of RESA services / programs be improved?

2. How can existing RESA services / programs be enhanced?

3. What new RESA services / programs would be of benefit to your school / organization?

RESA 2 EVALUATION

2013 - 2014

1. Program Evaluation: On a scale of 1-5 (with 5 being very useful and 1 being not useful), how would you evaluate RESA services to you and your school?

Total Number of Participants: 3,202
Total Number of Sessions Offered: 165
Mean of Survey Responses: 4.37

2. Program Suggestions: Give suggestions for improvement of programming.
 - Modeling lessons for classrooms.
 - Have on-line accessible staff development on the various offers - suited for a 45 min-1 hour format so that they could be accessed at the school's discretion.
 - Continue to develop and give PD to administrators within the RESA.
 - Provide all principals with a listserv to our school so we didn't have to create a large group when mass emailing.
 - Survey administrators and teachers to see what they would like to attend and when it would be convenient.
 - Coming into the classrooms to model.
 - Faster repairs.
 - How to prepare for OEPA!
 - Tying in / relating DBQ to my curriculum.
 - Resources to use for document based questions.
 - Clarity – books and authors to check out.
 - Learning activities to help kids understand the meaning of different concepts.
 - Breaking down data.
3. Enhancement of Existing Programs: What suggestions do you have?
 - Providing specific written directions, books, etc.
 - More time given to principals to learn new things that we are expected to have the teachers do.
 - Provide every student at school with an iPad or Tablet grades 5-8.
 - Intervention strategies – my teachers are still having questions – Data Analysis.
 - Learning various ways to teach hands-on math/whiteboard apps/Apple TV knowledge.
 - Demonstration of how to do document based instruction.
4. Development of New RESA 2 Programs: What new programs would you like to see developed?
 - Teacher PD on current trends in education.
 - Support for Personalized Learning.
 - Lots of PD.

- Out with textbooks and in with tablets/iPads.
- Ideas to implement the new standards. Specific ideas to use with the different standards. Location of materials is time consuming, so places to find materials would be helpful.
- Learning Centers in math; using literacy centers to support instruction; content integration.
- Understanding of different structures of cooperative learning.
- How to conduct and make team meetings more effective in our school.
- Digital citizenship.
- Leadership – student focus.
- Incorporating Science.
- Scaffolding / tiering lessons.
- Structure for student improvement.
- Upcoming grants.
- Helping / Meeting the needs of students with learning disabilities.
- Primary Writing.
- Social Studies and Science Common Core Explorers.
